

Mission Statement

The Business Technology Career Center, Inc. is a non-profit 501c3 agency in the District of Columbia, to assist residents dislocated, displaced, and underemployed with their current career development and job search so they can successfully meet the challenges of the current global job market. The center also helps employers by training workers to meet their needs.

Services are continually assessed and tailored to meet the personal needs of each individual in a supportive and learning-centered environment, through collaboration with career counselors, employers, utilizing one-to-one, group and electronic modalities.

Why choose us?

The recession, advanced technology and global outsourcing – these are just a few of the economic factors that have created a turbulent and uncertain workforce. At the Business Technology Career Center, we understand key issues and challenges that you're facing. That's why we offer a spectrum of services to put you on the road to a new job or career path.

BTCC takes a "high tech" mobile" online" approach and offers you:

- The ability to meet face-to-face either in person or using mobile technology.
- Career services with permanent, *MA level counselors*, highly trained and experienced staff that doesn't charge fees.

One-on-One Approach

On the surface it may seem like all career services are the same. But they're not. If you look a bit further, you'll soon discover that the Business Technology Career Center Services provides a number of job training and retraining programs and services to job seekers, and companies that other similar services don't.

As a full service, career counseling agency, our mission is to place each client in the highest quality job in the shortest period of time, while treating customers with respect and dignity. We take a one-on-one approach to matching qualified employees with qualified employers in the DC metro area. The initial goal is to increase awareness in the latest technology; provide career and technical training in industry based certifications; and educate the community to what's happening in our city.

"BTCC gave me more confidence that, giving up on my job search is not an option!"

Winter 2014 Client

"Thanks for helping me revise my resume summary. Not easy starting over after 20 years of government service."
